Contents Volume 128, January 1990

DANIEL E. OTERO (Syracuse, New York)
Extraction of mth Roots in Matrix Rings over Fields 1

HARALD K. WIMMER (Würzburg, West Germany)
On the History of the Bezoutian and the Resultant Matrix 27

KATARÍNA CECHLÁROVÁ (Košice, Czechoslovakia)
Strong Regularity of Matrices in a Discrete Bottleneck Algebra 35

GERALD N. HILE (Honolulu, Hawaii), AND PERTTI LOUNESTO (Espoo, Finland)
Matrix Representations of Clifford Algebras 51

JUAN-ENRIQUE MARTÍNEZ-LEGAZ (Barcelona, Spain), AND IVAN SINGER (Bucharest, Romania)
Lexicographical Order, Lexicographical Index, and Linear Operators 65

WILLIAM C. WATERHOUSE (University Park, Pennsylvania)
The Absolute-Value Estimate for Symmetric Multilinear Forms 97

BEATRIZ I. SAUBER (Capital Federal, Argentina)
When a Polynomial Has Exactly One Positive Root and No Roots in $(-1,0)$ 107

JEROME DANCIS (College Park, Maryland)
Bordered Matrices 117

CHUNYANG HE (Beijing, China)
On Estimating the Least Singular Value of a Matrix 133

ROBERT A. BEEZER (Tacoma, Washington)
A Disrespectful Polynomial 139

CHARLES R. JOHNSON AND PETER NYLEN (Williamsburg, Virginia)
Yamamoto's Theorem for Generalized Singular Values 147

C. B. SOH (Singapore)
Schur Stability of Convex Combination of Matrices 159

RAY REDHEFFER (Los Angeles, California), AND REINHARD REDLINGER (Karlsruhe, West Germany)
The Spectral Radius and Liapunov's Theorem 169

AUTHOR INDEX 181
